Bob

The last I heard about the bill was at the end of October. Lora has not heard about any movement on the bill since September. Have you guys heard anything new on it.

Also, Catherine my pull Martin aside and ask if you guys can press the Navy more on the schedule. Navy is saying it may take a year (or more) for them just to get approval to start to look for a 2 acre parcel. At one of the coordination meetings we had floated the idea of having NG acquire the property since they might have fewer bureaucratic hurdles....we think we should explore that option.

Doug
Thank you for send this to me. Yes we have been watching this bill. The last bit of information that we received was that the Bill was still at the House and there has been no movement since September.
R/
Lora

Lora

This came through to me at end of October.

Check pages 333-335 there - Subtitle E-Report on Groundwater Contamination that calls for the US Navy to undertake a study to be completed within 180 days.
